**The Honorable Jose D. L. Marquez**  
2006 Judicial Performance Survey

April, 26 2006

The Honorable Jose D. L. Marquez  
Colorado Court of Appeals  
Colorado State Judicial Bldg.  
2 East 14th Ave.  
Denver, Co. 80203

Dear Judge Marquez:

Every two years the Colorado Judicial Performance Commission conducts a survey of attorneys who have had cases with opinions authored or co-authored by those appellate court judges who face a retention vote in the next general election, and a second survey among all the State's judges and justices.

This report contains the results of these two surveys. In addition to this introduction, the report is divided into four main sections:

- **Attorney Results & Comments:** This section contains graphs displaying the average grade you received overall (the combined average from questions 2a through 2l) Following the graphs, are a series of tables showing the percentage distribution of responses to each question. Attorney respondents were also asked to comment about your performance. These comments have been transcribed, and in some instances redacted to eliminate respondent identifying information. A copy of the attorney questionnaire is at the back of this report.
- **Survey of Judges Results & Comments:** Similar to the Attorney section, this portion of the report contains graphs (again including the overall average of questions 1 through 10 on the Survey of Judges questionnaire), the percentage distribution of responses by the trial judges to each substantive question in the survey. The judges were also asked to comment about your performance. Again, these comments have been transcribed, and in some instances redacted to eliminate respondent identifying information. A copy of the Survey of Judges questionnaire is also at the back of this report.
- **Methodology:** The fourth section of the report discusses the methodology of the survey.
- **Questionnaires:** And the final section provides copies of the questionnaires that were used.

If you have any questions about the methodology and how the survey was conducted, please feel free to contact me at 303-443-5300 ext 1, and for any other questions you might have about the survey please call the Director of the Colorado Judicial Performance Program, Jane Howell, at 303-837-3665.

Best regards,

Paul A. Talmey  
President

# **Methodology**

# Methodology

**Sample:** The Colorado Judicial Department provided Talmey-Drake Research & Strategy, Inc. with names and addresses of attorneys who, in the previous 12 months, had a case decided by the Colorado Court of Appeals, of which the decision had been authored or co-authored by one of the six Court of Appeals judges up for a retention vote in 2006. Talmey-Drake Research was also provided with the list of Colorado judges and justices.

Two surveys were conducted, one among attorneys who had opinions authored or co-authored by one of the six Court of Appeals judges facing a retention vote in 2006, and a second survey of all Colorado judges and justices.

**Questionnaire:** Copies of the two questionnaires used are provided at the end of this report. Respondents were asked to use a grade of A, B, C, D, or F (Fail) to assess the judge's performance in a number of different areas. These grades were then converted to a numerical value where A = 4, B = 3, C = 2, D = 1 and Fail = 0.

**Response:** The response rate is calculated as the number of completed questionnaires divided by the number of eligible respondents who actually received a questionnaire. The following table shows the total number of questionnaires mailed, completed, non-responses & refusals, undeliverables and other responses. The table presents the overall response rate for each survey as well as the response rate for your surveys.

<b>Overall Response Rate</b>						
<u>Respondent Type</u>	<u>Total Sent</u>	<u>Completed</u>	<u>Refused/ Nonre- sponse</u>	<u>Unde- livered</u>	<u>Other</u>	<u>Response Rate</u>
Attorneys	405	160	2	40		43.8%
Judges	266	154		35		66.7%

<b>Response Rate for Judge Marquez</b>						
<u>Respondent Type</u>	<u>Total Sent</u>	<u>Completed</u>	<u>Refused/ Nonre- sponse</u>	<u>Unde- livered</u>	<u>Other</u>	<u>Response Rate</u>
Attorneys	69	24	1	4		36.9%
Judges	266	154		35		66.7%

**Results:**

The results of the Survey are in two main sections: Attorney Respondents and Judge Respondents. Within each main section are three subsections: graphs displaying average grades for each section and question, the percentage distribution of grades, and respondent comments.

**Graphs:** The graphs visually display the overall average numerical grades received for all grade questions, each section and each question compared to the combined averages for all the other Court of Appeals judges for which surveys in 2006 were conducted.

**Percentage Distribution of Grades:** This section shows the percentage of each grade received on each question plus the bias, sentencing and retention questions. An average grade point for each graded question is computed and shown in the results section. A letter grade is also assigned to each grade point according to the following scale.

<b>A = 4.00</b>	<b>B = 3.00 to 3.33</b>	<b>C = 2.00 to 2.33</b>	<b>D = 1.00 to 1.33</b>
<b>A- = 3.68 to 3.99</b>	<b>B- = 2.67 to 2.99</b>	<b>C- = 1.67 to 1.99</b>	<b>D- = 0.67 to 0.99</b>
<b>B+ = 3.34 to 3.66</b>	<b>C+ = 2.34 to 2.66</b>	<b>D+ = 1.34 to 1.66</b>	<b>Fail = 0.00 to 0.67</b>

This section also includes a comparative column of results showing the results for that question for all other Court of Appeals judges for which surveys were conducted in 2006.

**Comments:** Each respondent was encouraged to comment on the judge’s performance. This section contains these comments—again divided between results from attorneys and judges.

**Sampling Error:**

All sample surveys are subject to what is known as sampling error—the extent to which the results of the sample survey may differ from what would be obtained if the entire population being surveyed had been interviewed. The size of the sampling error is almost entirely due to the number of people interviewed for the survey and the variance of responses.

The table below shows the extent of sampling error (95%-confidence interval) for various sizes of random samples and sample percentage results.

	Sample Size					
	<u>25</u>	<u>50</u>	<u>100</u>	<u>150</u>	<u>200</u>	<u>300</u>
<b>Percentages near 10% or 90%</b>	± 11.8%	± 8.3%	± 5.9%	± 4.8%	± 4.2%	± 3.4%
<b>Percentages near 20% or 80%</b>	± 15.7%	± 11.1%	± 7.8%	± 6.4%	± 5.5%	± 4.5%
<b>Percentages near 30% or 70%</b>	± 18.0%	± 12.7%	± 9.0%	± 7.3%	± 6.4%	± 5.2%
<b>Percentages near 40% or 60%</b>	± 19.2%	± 13.6%	± 9.6%	± 7.8%	± 6.8%	± 5.5%
<b>Percentages near 50%</b>	± 19.6%	± 13.9%	± 9.8%	± 8.0%	± 6.9%	± 5.7%

For example, suppose a reported percentage is 80% in a sample size of 150, then one could expect that 95% of the time that a random sample of the same size and collected the same way would include the true population percentage within the range of 80% plus or minus 6.4%.

Averages such as grade points also have a 95% confidence interval, however it is not so easily displayed in a table as confidence intervals about a percentage. Suffice it to say that the confidence interval about a score generally increases with smaller sample size.

## Commission on Judicial Performance

### Survey of Colorado Judges

Please answer the enclosed questions about each of the five Court of Appeals judges who are standing for retention in November 2006. For questions 1 through 10 please grade each of the judges using a grade scale where an "A" indicates you believe the judge or justice is doing excellent on that aspect of his or her job, a "D" indicates that you believe he or she is doing poorly on that aspect of the job and an "F" indicates that you believe the judge or justice is failing at that task. B's and C's indicate that you believe the judge or justice is performing between excellent and poor on the particular task.

If, for a specific question, you feel that you do not have enough information to grade the judge on the task, or for some reason feel that you cannot grade him or her on the item, please circle the number that indicates "no grade."

Thank you.
