

Letter of Digital Accessibility Conformance

2025-03-20

Office of Judicial Performance Evaluation
1300 Broadway, Suite 220
Denver, Colorado 80203

A360 Enterprises, LLC (Allyant) is an expert in digital accessibility auditing, testing, consulting and training. Office of Judicial Performance Evaluation has engaged Allyant to test and evaluate the accessibility of Office of Judicial Performance Evaluation's desktop website with a homepage located at judicialperformance.colorado.gov.¹

Allyant performed live-user accessibility auditing, including but not limited to testing by individuals with disabilities using assistive technology, combined with digital testing tools, on a representative sample of pages of Office of Judicial Performance Evaluation's website. The accessibility audit was completed approximately April 3, 2024.

As of our Quality Assurance testing on March 20, 2025, our live-user accessibility testers did not encounter any accessibility blockers that would deny a user using assistive technology from accessing the main content and functionality. The following is the professional opinion of the Allyant testing team:

- The live-user accessibility testers were able to successfully access, use, and navigate the website.
- The website substantially conforms with Level A and Level AA of the Web Content Accessibility Guidelines (WCAG) version 2.2.
- Office of Judicial Performance Evaluation has addressed all significant issues that are in their control including owned source code and content within the scope of the project.

In addition, Office of Judicial Performance Evaluation has retained Allyant to provide ongoing accessibility live-user reviews (remediation support and QA testing) of [*judicialperformance.colorado.gov](http://judicialperformance.colorado.gov). With this in place, Allyant will perform ongoing accessibility testing and support of selected elements of the website, including live-user testing on a regular basis.
